Subject: Protection for our Coastal Rocky Habitat
Date: Wednesday, March 31, 2021 8:31:56 PM

Dear Working Group,

My husband and I live in Tillamook County and we strongly support Marine Conservation Area designation for Crook Point-Mack Reef and Blacklock Point and Chapman Point and yes Ecola Point, under the Oregon Rocky Habitat Management Strategy. These are habitat areas among many of special value, and it is important that they be recognized and that the public be educated about their value before they are trampled under foot.

We both thank you for your time and energy and urge that all current proposals coastwide be reviewed fairly and transparently by the Rocky Habitat Working Group using science and actual criteria. Let's keep our children in mind

as we preserve and protect our earth.

Allison Asbjornsen
