Subject: Marine Conservation Area designations on the Oregon Coast
Date: Sunday, April 11, 2021 8:46:13 AM

As a long-time Oregon resident who has seen the changes wrought by climate change and growing population pressure over the last 4 decades, I am writing to support the Audubon Society of Lincoln City's proposals for two areas: the Cape Lookout Marine Conservation Area and the Cape Foulweather Complex Marine Conservation Area.

Marine Conservation Area (MCA) designations for these two areas will conserve these relatively intact ecosystems that have high ecological value The MCA designation will not change commercial and recreational fish harvest regulations, boat access, or anchorage.

Please act to ensure these areas are preserved in perpetuity. By doing so advocacy groups and agencies will be positioned to launch ongoing stewardship programs to monitor these fragile ecosystems as well as provide valuable educational opportunities to the public.

Thank you for your attention to this matter.
