WORKSHOP DESCRIPTION

The Cape Lookout Marine Conservation Area Further Evaluation Workshop will be an opportunity to discuss the rocky habitat proposal identified by OPAC for further evaluation. The workshop will provide an opportunity for the entities who proposed sites to have discussions around and work through considerations identified in the Rocky Habitat Working Group proposal evaluation process. The workshops are structured to:

- identify whether the site proposal considerations are a concern to management agencies
- to allow proposers the opportunity to get agency feedback on their proposals or discuss modifications to the proposals ahead of making a presentation to the Ocean Policy Advisory Council (OPAC) in 2022.
