I am writing in support of designating Coquille Pt as a Marine Garden/Education Area. As far as I'm concerned there are no downsides to doing this. Acquiring a new designation will draw more attention to this site and hopefully encourage more efforts to protect this habitat from human activities. As the Oregon coast continues to develop, having Coquille Pt as a designated Marine Garden/Education Area will assist enlightening people visiting the southern OR coast, on the importance of sharing Earth's resources with other forms of life.

Coquille Pt is truly a marine garden and reflects the chain of life. From microscopic plants and animals in the tidepools to raptors and pinnipeds that find sustenance in birds and fish, and because Coquille Pt is so close to amenities in the town of Bandon, having Coquille Pt as a marine education area is perfect.
