SUMMARY

The work session opened with brief updates on the proposal evaluation process, followed by exploratory discussion. Four proposals were discussed during the work session, including: Cape Blanco MRA, Fogarty Creek MCA, Seal Rock MCA, and Coastwide Kelp Forests MRA. Each proposal discussed was introduced with the same high-level overview delivered in the January 26, 2021 Working Group meeting. Exploratory discussion followed a bullet-point summary of the primary points raised during the Agency Analysis. Agency representatives then provided their perspectives on the analysis, before exploratory discussion was opened to the rest of the group.
